

The Life of a Flower Pixie

By Elizabeth Duivenvoorde

Chapter 1- Spring

Larger scale image of ether image 6 or 16.

1. A tree infested park surrounded by a large fence. The fence should be stone on the bottom quarter, and black metal bars on the top. The season is spring.

Caption: Some people believe in magic.

2. Zoom in. See trees and dirt path.

3. Zoom in on a tree. It has flower buds on it, ready to bloom.

Caption: Others need to see to believe.

4. Zoom in on a branch. One of the buds is shaking.

5. The flower opens.

Caption: Problem is, they don't look close enough.

6. In the middle of the flower, a tiny girl lays naked. She's roughly nine years old. Her dark hair is to her shoulders. Tiny dragon-fly like wings stick out of her upper back: too small to use.

7. Zoom in on her eyes. They're closed.
8. Eyes open. They're completely black.
9. Zoom back out to the flower. She sits up.
10. Using an arm for support, she looks around. Leaves rustle behind her.
Caption: *Even in a world so different, danger lurks.*
11. She stands. Her legs shake.
12. The Pixie bends down and plucks a puddle from the flower.
13. She falls onto her butt when the peddle comes off the flower.
14. Zoom in on the rustling leaves.
15. A Leaf Goblin jumps out. A leaf is attached to his back. He is heavily based off an aardvark; same nose, ears, tail, etc. He walks on his back legs, so they are thicker. In his hand he has a sharpened twig/sword. He also has black eyes.

16. Zoom out and to behind the Pixie, who is now clothed in a top and skirt made from flower peddles. She's looking toward the goblin. She gasps as the Goblin charges at her.
17. The Pixie jumps off the branch. The Goblin is stretching out his twig-sword.
18. She lands on her hands and knees on the branch bellow.
19. View from above. She's looking up.
20. View from bellow her. See the Goblin looking down over the side of the branch.
21. Back to normal view of the Pixie. She dashes towards the tree trunk.
